## Agritabs Chlorine Tablets

An NaDCC based disinfectant tablet especially formulated to be effective against all food poisoning bacteria, MRSA, C Difficile (2,000 ppm min.), Viruses, Algae, Fungi etc. The tablets quickly dissolve and are suitable for general purpose sanitising, deodorising and disinfecting of most non-porous hard surfaces. Each tablet releases a minimum 1,000 parts per million available chlorine per litre of water even after prolonged storage.

### General Instructions

Always mix a fresh disinfectant solution every 24 hours or if solution is visibly dirty. Warm water (not hot) will speed up the tablet dissolution time and improve disinfection.

### General Sanitising of Equipment & Surfaces

Add 1 tablet to 5 litres of clean tap water to provide a solution of 200ppm available chlorine. Soak or wipe & leave for 5 minutes. Rinse if required.

### Animal Drinking Water Purification

1 tablet in 500L = 2ppm cl.  
1 tablet in 250L = 4ppm cl.

### Foot & Mouth, Swine Vesicular & General Orders

1g per 299ml = 1 tablet in 1.0L

### Poultry Orders

1g per 449ml = 1 tablet in 1.5L

This disinfectant has been approved for disinfection of inanimate surfaces where an approved product is required to be used under the control legislation for the following specific disease(s) orders;

- Foot-and-mouth disease at the dilution rate of one gram of this preparation plus 299ml water
- Swine vesicular disease at the dilution rate of one gram of this preparation plus 299ml of water
- Poultry diseases including avian influenza, influenza of avian origin in mammals, Newcastle disease, paramyxovirus at a dilution rate of one gram of this preparation plus 449ml of water

This approval is granted under the Diseases of Animals (Approved Disinfectants) Orders made by the Secretary of State for Environment, Food and Rural Affairs in England, Scottish ministers in Scotland and Welsh ministers in Wales. For confirmation of continuing approval refer to the Defra list of approved disinfectants at: <http://disinfectants.defra.gov.uk>

The contents of this container are guaranteed by the manufacturer to be of the same composition and quality as the sample submitted for approval testing.

## Health and Safety Information

**Contains: Sodium dichloroisocyanurate (1.67g per tablet)**

### CAUTION:

• Causes serious eye irritation • May cause respiratory irritation • Very toxic to aquatic life with long lasting effects • Contact with acids liberates toxic gas • Avoid breathing dust/fumes/gas or spray • Avoid release to the environment • Wear protective clothes/gloves/eye protection • **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists; get medical advice or attention • Call a **POISON CENTRE** or doctor/physician if you feel unwell (take this label) • Use outdoors or only in a well ventilated area. Store in a well-ventilated place. Keep Container Lid tightly closed.
